Great List

Brendon about listing [750 USA Wholesale Distributors for your Amazon FBA business](#) 6 months ago.

I just wanted to update you on how thrilled I am with the 750-list. I took your advice. I purchased a website, created it with the help of my new and awesome V.A. We also created social media presence on Twitter, Instagram, LinkedIn, Facebook marketplace. I also created an awesome email signature with Looka. I can't tell you the difference it makes sending professional looking emails with signatures to suppliers. Immediately afterwards we started searching suppliers from the list. It took a very long time to go through the list but it became something I really enjoyed. It was really eye-opening to all the suppliers available. I have been successful in securing at least 40 new suppliers from the list. I loved searching for them, communicating, inquiring, researching promising items, etc. That's why I purchased another list to see what else we can find. Thank you so much for this, it has really improved our business.
